BROKERAGE EVENT

19 February 2010

Elite World Hotel, Taksim-Istanbul

NEW PACKAGING TECHNOLOGIES FOR FOOD INDUSTRY

PURPOSE

The purpose of this Brokerage Event is to provide a favorable atmosphere so that all participants, universities and research centers, can come together and share the ideas about joint research projects. Therefore, the aim is to increase the relations between the industry and universities and also overcome the obstacles in the packaging sector. It is expected all participants actively take part in networking by presenting their organization, products and project ideas in the stand area.

WHO CAN ATTEND?

This Brokerage Event 2010 is open to all universities, public and private research centers and industry operating in food packaging sector which seeks partners and collaborations for R&D projects.

FOR PARTICIPATION

It is necessary to fill the Registration Form and if available please add your short abstract of your own or your foundation projects or unique ideas, and send your forms to safetchnopack@mam.gov.tr. The participation is free of charge, however limited places are available. The deadline for registration is 16th Feb. 2010.

REGISTRATION

Due to limited places, all participants are kindly invited to fill the attached form and send it to the address below until 16 Feb 2010. Limited number of stands will be allocated to the participants who wish to present their organization and project ideas visually by means of posters and carry out bilateral talks. Therefore those participants who would like to take a booth in stand area should prepare a poster including organization logo, name, products or projects. All stands are free of charge.
